Part Number 2579699-3

Revision: A

SPECIFICATIONS:

Description:

The **Slide cfMount™** is a fixed mounted base for attaching your EFB to the aircraft. The Slide model is designed for use on all wide body aircrafts. The mount provides maximum stability and reliability with five (5) + years in operation. The Slide function of this allows the pilots to slide the EFB AFT when on the ground providing easy access the egress window. Once in the air the pilot can then slide the EFB FWD to an optimal viewing angle. Our Constant Friction technology received a US Patent for its ability to keep its place in the most severe turbulence, while allowing you to adjust its position to your preferred viewing angle using one (1) hand.
