Attn: Mr. Alex Rodrigo, VP Engineering

Subject: Validation of Supplemental Type Certificate ST03833AT– Installation of an ICG Iridium Satcom System on Boeing Model 767-200/-300 Series Aircraft

Reference: FAA Application Letter **119A-15160-01**, dated June 9, 2015

This is in response to the subject application letter requesting Transport Canada approval of FAA STC ST03833AT.

In accordance with our current policy associated with the review of foreign STCs, some STCs applicable to certain categories of aircraft may be accepted solely on the basis of their foreign certification, and do not require the issue of a corresponding certificate by Transport Canada. The subject STC falls within these criteria.

This STC will be entered in the national index of STCs that have been reviewed and accepted by Transport Canada for installation on Canadian-registered aeronautical products.

This letter confirms formal acceptance of STC ST03833AT by Transport Canada.

Best regards,
